

Helping Families Understand and Address Challenging Behaviors of Children with Complex Needs

Does Your Child Have Challenging Behaviors? Let's Make a Plan!

Our children with challenging behaviors may have little communication, sensory issues and a lack of social skills. Sometimes these behaviors are confusing and we struggle with what to do to manage behaviors. Wherever your child's challenging behavior happens, would you like to learn more about why it happens, what may trigger behavior and what to do next? The SST is providing a **FREE** workshop to help families learn how to understand behavior. We'll talk about how to work with your child's school, develop a proactive behavior plan and talk about examples.
